

# SPACE 20 VISION 19

**Exploration:** A Human Imperative

**November 7-9, 2019**  
**Tempe, AZ**

# Future Partner Guide

# About Us

Students for the Exploration and Development of Space (SEDS) is a 501(c)3 non-profit that empowers young people to participate and make an impact in space exploration. SEDS helps students develop their technical and leadership skills by providing opportunities to manage and participate in national projects as well as to attend conferences, publish their work, and develop their professional network, in order to help students become more effective in their present and future careers in industry, academia, government, and education.

SEDS was founded as a chapter-based organization in 1980 at MIT by Peter Diamandis, at Princeton University by Scott Scharfman, and at Yale University by Richard Sorkin. SEDS-USA was founded as a national group in 1982 by Peter Diamandis, Bob Richards, and Todd Hawley. The largest student-run space organization in the world, it consists of an international community of high school, undergraduate, and graduate students from a diverse range of educational backgrounds in chapters all over the world, including Canada, India, Israel, Mexico, Nepal, Nigeria, Philippines, Spain, United Kingdom, and United States.

## About the Conference

Since 2004, SEDS has provided the opportunity for its chapters to bid and vote on the next host of SpaceVision, an annual, national, student-led conference. Each year, a different chapter hosts the conference, giving the selected chapter(s) the opportunity to show off their unique attributes. SpaceVision attracts over 400 student attendees yearly from SEDS chapters across the country. The conference in 2019 is expected to reach an audience of over 500 attendees and will be the first SpaceVision to host international students. With student members having strong technical backgrounds and passion for exploring space, SEDS has the potential to act as a direct pipeline for young and determined students to enter the multi-generational aerospace industry. SpaceVision is a great opportunity to recruit from the next generation of space leaders and strengthen your company's brand.

**We are who we have always been: travelers, adventurers, and, most importantly, explorers.** Our history tells the story of a species driven by a desire for knowledge. As we grow, so does our intellect, our understanding, and our judgment. Yet, **one thing remains the same: an inherent sense of curiosity seemingly existent in all of us** from the moment we enter the world.

We **continue to push the boundaries** of science and technology, stepping foot into the unknown every single day through every new invention and discovery. Questions propel us further into the unknown **as we explore** the world and everything around it. We take on challenges and continuously surpass the once greatest achievements of mankind. We look at the stars and promise to one day visit them, but we never forget our true home.

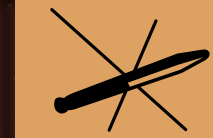

The theme for Spacevision 2019 is "Exploration: The Human Imperative", encapsulating the means by which mankind has achieved all that it has. It acts as a fundamental guideline by which we continue to grow. It is a powerful statement to remind everyone what really connects us, from commemorating stepping foot on a different celestial body 50 years ago to celebrating the discoveries of tomorrow.

# Sponsorship Packages

By sponsoring SpaceVision 2019, your organization will be recognized by industry leaders and experts, as well as provide brand visibility to a geographically diverse audience of over 400 highly motivated students and attendees.

We are pleased to offer the following sponsorship opportunities at this time. If your organization would prefer a more customized level of involvement, feel free to contact us to make special arrangements.

	 <b>Apollo</b>	 <b>Gemini</b>	 <b>Mercury</b>	 <b>Ranger</b>	 <b>Explorer 1</b>
<b>Value</b>	\$15,000	\$7,500	\$5,000	\$2,500	\$1,000

## Audience

SpaceVision 2018 had a total of **438 registrants**. Here are some statistics about them:

# Special Events

Students attend SpaceVision because of the numerous opportunities for networking with fellow students and industry professionals. These special events sell out fast, and are a valuable and exclusive opportunity to access and address all attendees (special events typically enjoy over 80% attendance), maximizing your dollar's impact. These events may be sponsored independent of or in conjunction with a sponsorship package.

## \$3500 Silent Disco

Help us take over the dance floor as we celebrate Neil Armstrong's 50th anniversary of "one stepping" on the Moon as we take giant leaps for all of mankind. Staying true to there being no sound in space, we will be hosting a silent disco.

## Ice Cream Social \$1500

Take part in bringing our far-out, frigid counterparts to Earth with an out-of-this-world ice cream social. Your company can help students cool their engines before their long journeys home.

## \$5000 (2 available) Lunch

Sponsor Friday or Saturday mid day meal. Included is a 10 minute opportunity for the opening remarks prior to the lunch meeting time.

## Banquet \$7500

Become the exclusive sponsor of Saturday's Awards Banquet, attended by 80% of student registrants. Help select the winner of the Best New Chapter Award and present them with their \$500 grant.

## Choose Your Theme

Masquerade? Trivia night? Sock hop like its 1969 again? Whatever you want!

# Contact Us

If your organization or company is interested in inspiring, recruiting, networking with the next generation of aerospace industry professionals, please contact co-chair of SpaceVision 2019 Jessica Maschino, to discuss the sponsorship levels and options discussed in this document.
